8 January 1951

MEMORANDUM FOR: Deputy Director for Administration

SUBJECT: Congressional Contacts

1. It would be very helpful to me if I could be kept informed of all discussions with members of the Congress which in any way concern official business of CIA.
2. The Director and the Deputy Director personally handle their affairs with Congress, but all other official relationships with both the House and Senate and the Democratic and Republican National Committees come through my office.
3. Many Agency officials, however, have personal friendships in the Congress and it is inevitable that discussion of CIA matters will take place. It is these discussions that I very much appreciate hearing about.
